

#### Section 16.17.12 Presumption, Warning and Disclaimer.

Conditions described on geologic hazard maps and aerial topography maps for Wasatch County, together with applicable explanatory material, are presumed to exist for the purposes of this chapter, until substantial evidence to the contrary is submitted. This Geologic Hazards Overlay Zone chapter and the associated Geologic Hazard Overlay Zone Maps represent only those potentially hazardous areas known to the County, and should not be construed to include all possible potential hazard areas. If new areas are discovered and brought to the attention of the County by reliable experts, appropriate actions will be taken to amend this chapter and the maps. The provisions of this chapter do not in any way assure or imply that areas outside its boundaries will be free from the possible adverse effects of geologic hazards. This chapter shall not create liability on the part of the County, any officer or employee thereof for any damages from geologic hazards that result from reliance on this chapter or any administrative requirement or decision lawfully made thereby.
